# McIlvainea

VOLUME XVIII ♦ NUMBER 1  
SUMMER 2009

A publication of the  
North American Mycological Association

*Birds, flowers, insects, stones delight the  
observant. Why not toadstools? A tramp after  
them is absorbing, study of them interesting,  
and eating of them health-giving and supremely  
satisfying.*

*Charles McIlvaine, 1840-1909*
